

CHEROKEE NATION EBT FOR CHILDREN PROGRAM

The Cherokee Nation Summer Nutrition Program is now accepting applications for the summer EBT for Children program. Funds are available for those households that received Free or Reduced School meals at a participating school. Households must apply online to receive summer Nutrition EBT Card.

What is the Summer Nutrition Program?

- The Cherokee Nation WIC Nutrition Program is administering the Summer Nutrition Project.
- The Summer Nutrition Project is only available to students eligible for free/reduced school meals during summer months when school is not in session. **STUDENTS DO NOT HAVE TO BE TRIBAL MEMBERS TO APPLY!** This is not the WIC Nutrition Program: however, it provides the same foods WIC offers. The Summer Nutrition Card works like a debit card. Qualifying families will receive approximately \$30 of free food per child per month for May, June and July. You can use your Summer Nutrition Card at the grocery stores that accept the Cherokee Nation WIC card.

To apply online, please click here:
